

## Halloween Ornament

This is a fun and easy craft to make. Tape it to your wall or add a ribbon on the back and hang it somewhere fun.

### Supplies Needed:

- Rosette paper templates (Size varies per kit: 5", 4.5", 4") (Sizes are labeled on template)
- Halloween paper rounds
- Glue stick (not included in kit)
- Hot glue gun (not included in kit)
- Scissors (not included in kit)

### Instructions for full circle rosette (5" & 4.5"):

1. Rosette templates are double sided. A colorful image is on one side and on the opposite side is a folding template. Start by cutting out the long rectangular templates. (See picture below).

2. Fold the template accordion style, alternating sides of the paper. (See picture below).

- Use glue stick to attach 2 pieces together. First, make one long piece (make sure they are facing the same direction). Then glue the ends together of the long piece. (See picture below).

- Flip your rosette over, pushing the middle down so that it completes a circle. Use the hot glue gun in the middle to keep it in place. Wait for it to dry. Be careful, it's hot! (See picture below).

- Cut out the paper round and use hot glue in the middle of your rosette to adhere it. (See picture below).

## Instructions for rosette bow (4")

1. Rosette templates are double-sided. A colorful image is on one side and on the opposite side is a folding template. Start by cutting out the long rectangular templates. (See picture below).

2. Fold the template accordion style, alternating sides of the paper. (See picture below).

3. Pinch one side of your rosette closed and fan out the other side, then use the glue gun to hold the pinched side in place. Repeat on other piece. (See picture below).

4. Use scissors to cut out your round and adhere the 2 pieces using the hot glue gun in the middle of the paper round. (See picture below).
