

Teen Take & Make: Paper Bag Stars

Supplies:

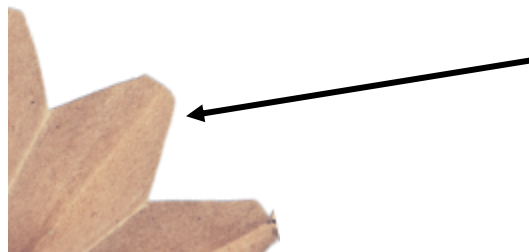

- 8 paper bags
- String

Supplies needed:

- Glue (stick or liquid)
- Markers, paint or whatever art supplies you want
- Scissors

Instructions:

1. If desired, decorate all sides of each paper bag with your art supplies, including the sides and bottom of the bag.
2. Lay one bag flat on a surface, with the front of the bag face-up. Place glue all down the front of the bag, and place another bag directly on top (facing the same direction). Repeat the process until all bags are glued together in a stack. Be sure that all of the tops (openings) of the bags are facing the same direction as you layer them.
3. Cut each side of the open part of the bags into a point, like paper snowflakes.

4. Place glue all down the front of the top bag, and connect it to the bottom bag in a “fan” motion. You should now see the star shape.
5. Hold the glued part of the bags until the glue begins to dry and the bags remain glued together when released.
6. Create a hole in the top part of the star, either with a pencil or a hole punch and tie a string through the hole to act as a hanger.
